The undersigned hereby applies for Electrical and/or Water/Wastewater Services at the location identified in Service Order No. _____ and agrees to pay all charges incurred at such location for such Utility Services and to comply with the Regulations and Rate Schedules now in effect and/or adopted while service is being provided. I agree to claim no damages on account of stoppage of services(s) resulting from service failure or where necessary to make alterations, repairs, or improvements. I agree to pay all charges for service(s) furnished the premises subscribed for by me until I order the Utility service(s) discontinued.

I agree that all meters, transformers, poles, structures and other equipment placed over or under the premises by the PPUC for the purpose of rendering services to said premises up to and including meter installations, unless otherwise expressly provided, shall be and remain the property of PPUC, and I shall exercise reasonable care to protect such property from loss or damage. I agree that at the commencing of the service applied for, all utility systems up to and including meters, previously constructed by me or for me, shall become the property of the PPUC and all the future maintenance, repair or replacement will be at PPUC's expenses.

In case I am not the owner of the premises or of intervening property between the premises and PPUC systems/infrastructure, I agree to obtain from the proper owner or owners the necessary easement and consent to the installation and maintenance on the premises and on such intervening property of all equipment required to supply services and I hereby agree to hold the PPUC harmless from and against any claim by the owner or owners arising by reason of transiting said property.

I agree to pay all installation charges, calculated to cover all estimated cost of materials and labor plus an installation fee and a security deposit in the amount equal to twice the estimated average monthly bill, prior to installation of service. I understand that the security deposit may be refunded after one year during which time I had faithfully paid for all utility bills before their due dates. I further understand that the monthly billing statement PPUC issues, which shows the planned disconnection date for that billing period, also serves as a disconnection notice. No further disconnection notices will be issued by PPUC.

I agree that after commencement of utility services, I shall diligently pay all utility bills when they become due. I am informed of the collection procedures of PPUC and hereby grant to PPUC garnishment rights on my wages for any delinquent amounts that are ninety (90) days past due.
